Get inspired by the mCourser instances we've created for our international clients, and make your eLearning environment functional, practical, and fun.

*From design to technical features -  
we'll make mCourser fully yours.*

## CUSTOMIZE YOUR LMS PLATFORM WITH MULTIPLE POSSIBILITIES:

### TRANSLATE THE INTERFACE TO DIFFERENT LANGUAGES

Share your comprehensive eLearning environment with worldwide users- mCourser welcomes all languages! You can easily translate the special interface to have the best multilingual LMS in the world.

### ADAPT THE LOOK AND FEEL

Education levels, age groups, subjects... learning in a well-fitted environment is easier and more comfortable. Match the LMS design to the needs of your target group and ensure your users are happy to learn.

### KEEP YOUR IDENTITY

In mCourser, you can customize different layers of the platform. Fill them with characteristic color patterns, fonts, and logos of your brand or a chosen school.

## **MAKE IT SIMPLE**

Platform administrators can switch on and off different functional modules to streamline students' workflows or avoid distractions. This functionality is especially useful in eContent for special needs in education and development, where students need more support to concentrate.
