

eLEARNING OFFLINE APP

There are places or situations with no Internet access. mLibro is an offline application completing the mCourser platform. Learners have access to their online resources anytime and anywhere.

HOW DOES mLIBRO WORK?

1 DOWNLOAD eCONTENT

While connected to the Internet, Students can download their assignments and digital lessons from the mCourser platform to an offline application.

2 WORK OFFLINE

Students can work offline anytime and anywhere. Their results are stored locally on their computer or mobile device.

3 UPLOAD RESULTS

Once learners connect to the Internet again, their results are automatically synchronized with the mCourser platform.

MAIN FEATURES

1 SIMPLE & EASY TO USE

Thanks to the simplified and easy-to-use mLibro's interface even Students with limited computer literacy can work safely and effortlessly.

2 SYSTEM AGNOSTIC

The mLibro application can work on stationary Windows-based computers or on iOS or Android mobile devices as a native app.

3 FREE OF CHARGE

mLibro is a free application that, depending on a Student's device, can be downloaded from [App Store](#), [Google Play](#), [Microsoft Store](#) or directly from [Learnetic's webpage](#).
